### **Section C: Reading and comprehension (10 marks)**

*Read the text below and answer the questions.*

Electronic equipment is very fashionable these days and there are many different products on the market. These are often called gadgets and one can buy them at local markets or in speciality shops. Music lovers can buy equipment that plays music as well as videos and podcasts. The equipment is small and portable and can often be used to send messages, listen to the news, and send and receive mail as well. You can have music and mail wherever you go! Laptops and computers provide an endless source of online entertainment products such as films, documentaries and concerts.

They also provide games. Game consoles are another source of amusement and entertainment for many. Musical instruments such as drums, calabashes and guitars are used for entertainment by people around the world. Drums can be made of traditional materials such as animal skins or they can be made of metals and other synthetic materials.
