Text : Common diseases

A disease is something that affects the health of a person or an animal. There are some common diseases like malaria, typhid, cholera and even the corona virus disease. Some symptoms of these diseases or illnesses are fever, vomitting, diarrhoea, headache, cough and catarrh. Generally, they are caused by the absence of basic hygiene and sanitation actions. For example, the washing of hands with clean water and soap. Secondly, the cleaning of our environment, and lastly, the washing and cooking of our food. If you are sick, you should go to the hospital.
