### SECTION C : READING : (10 marks)

Carefully read the following text and answer the questions that follows.

#### **“ WE NEED TO PROMOTE THE AFRICAN CULTURE”.**

We have a project and it is to sensitize Cameroonians about our culture. The African culture is very rich and celebrated at international levels. We therefore solicit SOPECAM to help us through its Media platform to educate the population on the importance of our culture. We need to be proud of our culture which is an impeccable element of national integration. Cameroon is a diverse nation and every individual should endeavor to fit in a cultural context and strive to know and understand the others. Our intentions are geared towards improving, celebrating and linking up the diverse Cameroonian cultures and those of Africa in general and supporting the actions like those of the commission on the promotion of Bilingualism and Multiculturalism that also works towards achieving these goals.

Our association has decided to organize holiday camps for princes and princesses of the different chiefdoms across the country and they will be moving from one region to another. These exchange visits will enable them learn, understand and master not only aspects of their cultures but those of other regions. We also met with the Minister of Basic Education to advocate for the inclusion of such a programme as an extra-curricular activity in schools. This will enable our children to visit other cultural areas of the country in order to understand our varied cultures.

We have a catalogue of ideas which needs to be revamped, spanning from dressing to mannerism. Our culture does not encourage indecent dressing which is very popular amongst the youthful population of today. Traditional dressing rather commands respect and sends across powerful signals of self-discipline. We are therefore trying to encourage proper dressing and mannerism, and advocating for the practice of African values.
