

Montesquieu Bilingual Private College

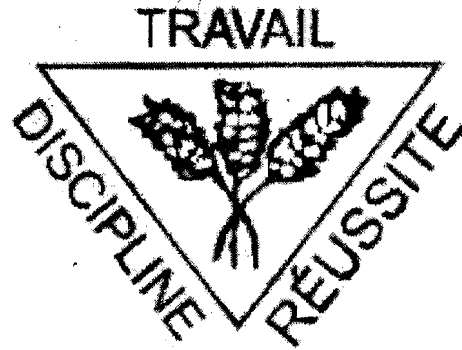

Promotion examination 2023/2024

Subject: Geography.

Class: Form 1

Duration: 2hrs

Name of student:

Section A: Testing of knowledge

INSTRUCTIONS: Mark an (x) across the letter corresponding to the right answer.

1) what name is given to the atmospheric condition of a place over a short period?

- A) school B) weather station C) weather elements. D) weather instruments

2) Geography helps in the making of maps;the science of map making is called?

- A) cartography. B) climatology. C) biogeography. D)planetary

- A) weather. B) wind vane. C)Barometer. D)weather

3)when wind is blowing ,the weather is said to be ?

- A) Cloudy B) Windy. C)Rainy D) Sunny

4)Name the first layer of the atmosphere beginning from the earth surface

- A) stratosphere. B) Mesosphere. C) troposphere. D) thermosphere

5) what name is given to the largest crater lake in Cameroon?

- A) L. Nyos. B) L.Barombi Mbo. C) L. Oku. D) L. Chad

6) Lines of longitude meet at the poles and these lines are called?

- A)parallel B) Meridians C)Greenwich .D)Equator

7) A place where a river begins is known as?

- A) Tributary. B) Confluence. C) Watershed. D)Drainage Basin

8) The most abundant gas in the atmosphere is ?

- A) Oxygen B) Nitrogen C) neon D) Carbon dioxide

9) one of the following is not a type of global winds. which is the exception:

- A) westerly winds    B) trade winds    C) Easterly winds    D) monsoon winds

10) How many days does the earth take to go round the sun?

- A) 1    B) 7.    C) 365(1/4)    D) 31

11) Biogeography and climatology are sub-branches in Geography. Name one other sub-branch

- A) Geographer.    B) Meteorology.    C) Geometry.    D) missionography

12) The most abundant gas in the atmosphere is?

- A) Nitrogen.    B) oxygen.    C) carbon dioxide.    D) Argon

13) A graph that is used to represent both temperature and rainfall data of a place is called?

- A) pie chart.    B) Histogram.    C) Bar chart.    D) Climograph

14) what name is given to the latitude which divide the globe into two equal hemispheres?

- A) GMT.    B) Equator.    C) tropic of cancer.    D) Equinox

15) Waste which comes from households is called?

- A) biomedical waste.    B) solid waste.    C) municipal waste.    D) Liquid waste

#### Section B: Testing of skills

Using a table, arrange the following under weather elements and instruments used in measuring weather elements: sunshine, visibility, atmospheric pressure, cloud cover, sundial, anemometer, humidity, hygrometer, barometer, windspeed. 5mks

#### Section C: Testing of Competence

Ayissi lives at Akak, a village in the centre region of Cameroon. She goes to the near-by river everyday to bathe and fetch water for cooking and drinking.

1) Apart from the importance of rivers mentioned above, state two other importance of rivers to man. 2mks.

2) Name the eight(8) planets of the solar system. 8 mks

Good luck!
