 - b. Discussing with an AIDS patient
 - c. Sitting in same class with an AIDS patient
 - d. Using same blade with an AIDS patient

8. A green*house is a
 - a. Green building
 - b. Transparent building that keeps alot of heat
 - c. Transparent building that convert solar radiation into infrared radiation
 - d. Tranparent glass building which protect plant from cold weather.
9. Is a natural phenominon which retains less heat on earth and make life possible on earth
 - a. Green house effect
 - b. Global warming
 - c. Climate change
 - d. Ozone layer
10. An increase in the average temperature of the earth is
 - a. Ozone layer depletion
 - b. Global warming
 - c. Climate change
 - d. Green house gas
11. Which of the following is nog a green house gas
 - a. CO₂
 - b. Ozone
 - c. Methane
 - d. CFCs
12. What is the role of green house gas
 - a. Send back much heat to the earth surface
 - b. Reflect much heat unto the eath surface
 - c. Allow more heat to escape into space
 - d. To reflect much heat into the eath surface.
13. Which of the following will reduce the risk of global marming
 - a. Population increase
 - b. Deforestation
 - c. Burning of fossil fuel
 - d. Use electrical energy
14. Which of the following is not an indication of global warming
 - a. Melting of glacier
 - b. Climate change
 - c. Increase in the amount of CFCs in the atmosphere
 - d. Bleaching of coral reefs
15. Which of the following is **not** an effect of ozone layer depletion
 - a. Global warming
 - b. Melting of polar ice
 - c. Appearance of plant in the desert
 - d. Skin cancer
 - e. Oral sex
 - f. Video sex
16. The massaging of the brest of a young girl who is approaching puberty is

- a. FGM
 - b. Brest shaping
 - c. Female circumcison
 - d. Brest ironing
