

CLASS FORM: 2

NAMES OF STUDENT _____

Competence to be tested: COMPUTER HARDWARE DEVICES

SECTION A: (MCQ)

ANSWER ALL THE QUESTIONS WITH AN (X) ON THE RIGHT ANSWER (1 mark each)

1. Which hardware component allow user to communication which the computer system.
 - a) Software
 - b) System
 - c) Devices
 - d) Component
2. We can distinguish between hardware by dividing them into -----
 - a) Software and hardware
 - b) Hardware and storage
 - c) Storage and output
 - d) All of the above.
3. The device that allow computer user to keep information for future use is -----
 - a) Storage device
 - b) Output devices
 - c) Input devices
 - d) None of the above
4. The hardware devices that are connected to the main circuit board of computer is known called:
 - a) Component
 - b) Devices
 - c) Peripherals
 - d) Users profile
5. The case where you connect the peripheral is called the -----?
 - a) System units
 - b) Ports of the computer
 - c) Communication device
 - d) Stabilization port
6. Any device of the computer system that is responsible for transferring raw facts into meaningful information is called
 - a) Data
 - b) Information
 - c) Processor
 - d) Storage
7. Any physical location that can hold data either temporal or permanent is known as
 - a) Input devices
 - b) Output devices
 - c) Processing devices
 - d) None of the above
8. Secondary storage devices can be describe as
 - a) Temporal
 - b) Permanent
 - c) Short period
