- Don't share personal passwords.
- Don't use the same password for many accounts.
- Never reply to calls and emails asking for verification or confirmation of user IDs.
- Think twice before clicking on links.

D: COMPOSITION (10 Marks)

Option 1: Advantages and Disadvantages of ICTs in Our Lifestyle

ICTs have transformed modern life significantly. On one hand, they provide numerous advantages such as improved communication, access to vast knowledge, and convenience in daily tasks. For example, video conferencing tools allow us to connect with people globally, while online banking simplifies financial transactions. However, there are disadvantages, including addiction, cybercrime, and the erosion of traditional values. Overuse of social media can lead to mental health issues, and excessive reliance on technology may reduce face-to-face interactions. Thus, it is essential to use ICTs responsibly and balance them with offline activities.

Option 2: Netiquette for Facebook Forum

Forum Name: Youth Empowerment Network

Objective: To promote positive discussions and share resources for personal and professional growth.

Netiquette Rules:

1. Respect others' opinions and avoid offensive language.
2. Post relevant content only.
3. Avoid spamming or promoting unrelated products.
4. Use proper grammar and punctuation.
5. Report inappropriate posts to moderators immediately.

Option 3: Speech on Internet Usage

Dear Village Authorities and Youth,

Today, I want to address the growing concern about internet usage in our village. While the internet offers immense opportunities for education, skill development, and global connectivity, misuse can lead to negative consequences. For instance, excessive gaming or social media engagement can hinder academic performance and community participation. However, when used wisely, the internet can enhance learning, provide job opportunities, and foster innovation. Let us embrace technology responsibly and ensure it serves as a tool for progress rather than distraction.

Thank you.

Option 4: Letter to Mother

P.O. Box 64, Tiko
abelboka@hotmail.com

Dear Mother,

I hope this letter finds you well. I recently bought you a new phone, and I wanted to share some tips to maintain its condition and extend its lifespan. First, always keep the phone clean and avoid exposing it to water or extreme temperatures. Second, charge it regularly but avoid overcharging overnight. Third, install trusted apps only and update them frequently. Lastly, use a protective case and screen guard to prevent damage.

With love, Abel BOKA
