III-Complete the phrases with the most appropriate option from the brackets.

1)-Most people who are drug and alcohol addict _____ develop abusive behaviours. (often, hardly, seldom)

2)-According to the first aid agents _____ should always be put on the injured area of the footballer's foot to avoid swelling. (ice, hot-water, grind-pepper)

3)-Each excessive alcohol consumer and smoker should be advised to go to the hospital and meet a _____

for a toxicological therapy. (toxicology, toxicologist, toxin)

4)-Why should we check the expiring _____ on the medicine packages before consuming it? (date, century, year)

5)-The _____ way to manage our wastes is to recycle them. (safe, safest, safer)

SECTION B: Vocabulary (10 marks) I-Fill in the missing parts of the paragraph with suitable response from the bracket.

(ventilate, nosebleed, water, gloves, medicines, paracetamol)

First aid agents advice us to always wear 1) _____ on our hands when cleaning a wound, to keep all 2) _____ out of reach of children. If the patient has a 3) _____, bend him or her forward and pinch his/her nose for a few minutes. Always wash the bleeding wound with clean 4) _____ and make sure you always lie down a classmate who has fainted and 5) _____ him/her

II-Match a part in column A to its corresponding end in column B to form a meaningful expression in column C

| COLUMN A | C OLUMN B | COLUMN C (Complete sentences) |
|--------------------------------|-----------------------------|-------------------------------|
| 1)To provide a | a) to avoid sport injuries. | |
| 2)Diligent jogging helps | b)when driving a car. | |
| 3)An article is a letter | c)looking left or right. | |
| 4)Always put on a seatbelt | d)first aid treatment. | |
| 5)Don't cross the road without | e)written to an editor. | |

SECTION C: Reading comprehension (10 marks). Carefully read the text below and answer the questions given in good and well-polished English.

Many people die each year as a result of accidents in the work place. While some traditional occupations such as fishing and farming are fairly safe, there are still some dangers. Working conditions are often poor and there are few inspectors and safety experts to advise farmers and fishermen. Workers do not always wear protective clothing or know how to use equipment safely. For example, farmers use insecticides to spray their crops. These are poisonous, but many farmers do not wear goggles to protect their eyes or masks to prevent them from breathing in the spray.

The construction industry is responsible for many deaths, injuries and illnesses. Some construction workers labour industry conditions without masks or goggles. Accidents happen during construction work. Builders do not always use suitable scaffolding or equipment such as proper ladders on building sites. Welders join pieces of metal through a welding process. This process uses electric current and special welding rod that gives off dangerous sparks. Sometimes welders do not protect their eyes and hands when they use welding equipment. There are a growing number of commercial motorcycles riders in Cameroon and not all drivers are trained to drive safely. In 2013, there were 3933 deaths in the country because of motorcycle accident alone! Is enough being done to warn people about these dangers? Is enough attention being paid to the advice of safety officers? What do you think?

Questions

Culled from Interaction in English book 3

- 1)-Propose a brief title to this passage. _____ (2mrks)
- 2)-Why should welders wear safety goggles? Tick (V) the correct answer _____ (1mrk)
- a) To protect their eyes against dangerous sparks from pieces of hot metals. b) To protect their ears against bad sounds.
- c) To prevent unpleasant choky smell from hot metals. d) To avoid cardiovascular accidents and injuries.
- 3)-The immediate and rapid assistance given to an injured person or a victim of an accidents is called _____ (1mrk)
- a) First aid assistance, b) Incentive assistance, c) Delivering prayers, d) Midwife aiding
- 4)- According to your understanding of the knowledge on safety and risk avoiding, what is the "red line" (risky zone)? _____ (1mrk)
- a) The line or zone which is very red. b) The line or zone too far from any problem, accident and risk.
- c) The line closest to any risk, accident or injury. d) The line with no risk (danger) of accident or injuries.
- 5)-Motorbike riders put on helmets to protect their heads when an accident occurs. TRUE or FALSE? _____ (1mrk)
- 6)-Why do accidents happen during construction work in the building field?
_____ (1mrk)
- 7)- How many deaths did commercial bike riders record six years ago in Cameroon? _____ (1mrk)
- 8)-Are drug, alcohol and tobacco abuse also responsible for the high number of accidents in our society today? _____
Justify _____ (1x2mrks)

SECTION D: Composition (10marks) Write a composition of 150-200 words on any topic of your choice. Mind your English.

Topic 1-Imagine that you saw (came across) a ghastly motor accident last week when coming back from school, recount the scene. (Tell: when and where it happened?, how it started?, who were the victims?, how the injured persons were taken care of?, how did you feel after that scene?).

Topic 2-Write a letter to the principal of your school to tell him how to administer a first aid assistance to a student who has fainted during a sport and physical exercise lesson and he is bleeding on his nose. Your address is GBHS Ntinkeu PO Box 001 GRA street. You are Traupen Ajuatsa.

Topic 3- Many people are constantly smoking cigarette in your community and this is causing a lot of health problems and disturbing their well-being and that of their neighbours. You are called Jude Assakang, from GBHS Dschang P.O Box 22 Menoua. Write a to your uncle to tell him five consequences of smoking and propose three measures to be adopted to stop smoking.

Correction of ANGLAIS DS #3

SECTION A: Grammar (10 marks)

I. Rewrite the expressions below as stated for you. (Do not change the meaning.)

- 1) If the population administer first-aid assistance to the victim, he will not bleed and die.
Rewritten: If the population had administered first-aid assistance to the victim, he would not have bled and died.
- 2) They did not recycle their wastes. It caused pollution.
Rewritten: If they had recycled their wastes, it would not have caused pollution.

II. Change the sentences below following the prescriptions in the brackets.

- 3) Namundo drove too close to the risky zone. Namundo had an accident. (Join with "because")
Rewritten: Namundo had an accident because he drove too close to the risky zone.
- 4) Safety shoes prevent many injuries at workplaces. (Interrogative form)
Rewritten: Do safety shoes prevent many injuries at workplaces?
- 5) The food can be prepared and stored in the refrigerator by them. (Change into negative form)
Rewritten: The food cannot be prepared and stored in the refrigerator by them.

III. Complete the phrases with the most appropriate option from the brackets.

- 6) Most people who are drug and alcohol addicts **often** develop abusive behaviours. (often, hardly, seldom)
- 7) According to the first aid agents, **ice** should always be put on the injured area of the footballer's foot to avoid swelling. (ice, hot-water, grind-pepper)

- 8) Each excessive alcohol consumer and smoker should be advised to go to the hospital and meet a **toxicologist** for a toxicological therapy. (toxicology, toxicologist, toxin)
- 9) Why should we check the **expiring date** on the medicine packages before consuming it? (date, century, year)
- 10) The **safest** way to manage our wastes is to recycle them. (safe, safest, safer)

SECTION B: Vocabulary (10 marks)

I. Fill in the missing parts of the paragraph with suitable responses from the bracket.

(ventilate, nosebleed, water, gloves, medicines, paracetamol)

First aid agents advise us to always wear **gloves** on our hands when cleaning a wound, to keep all **medicines** out of reach of children. If the patient has a **nosebleed**, bend him or her forward and pinch his/her nose for a few minutes. Always wash the bleeding wound with clean **water** and make sure you always lie down a classmate who has fainted and **ventilate** him/her.

II. Match a part in column A to its corresponding end in column B to form a meaningful expression in column C.

| COLUMN A | COLUMN B | COLUMN C (Complete Sentences) |
|---------------------------------|----------------------------|--|
| 1) To provide a | d) first aid treatment | To provide a first aid treatment |
| 2) Diligent jogging helps | a) to avoid sport injuries | Diligent jogging helps to avoid sport injuries |
| 3) An article is a letter | e) written to an editor | An article is a letter written to an editor |
| 4) Always put on a seatbelt | b) when driving a car | Always put on a seatbelt when driving a car |
| 5) Don't cross the road without | c) looking left or right | Don't cross the road without looking left or right |

Questions Culled from Interaction in English Book 3

1. Propose a brief title to this passage.
Answer: Workplace Safety and Accidents
2. Why should welders wear safety goggles? Tick (✓) the correct answer.
Answer: ✓ To protect their eyes against dangerous sparks from pieces of hot metals
3. The immediate and rapid assistance given to an injured person or a victim of an accident is called:
Answer: First aid assistance

4. According to your understanding of the knowledge on safety and risk avoiding, what is the “red line” (risky zone)?
Answer: The line closest to any risk, accident, or injury
5. Motorbike riders put on helmets to protect their heads when an accident occurs. TRUE or FALSE?
Answer: TRUE
6. Why do accidents happen during construction work in the building field?
Answer: Builders do not always use suitable scaffolding or equipment such as proper ladders on building sites.
7. How many deaths did commercial bike riders record six years ago in Cameroon?
Answer: 3933 deaths
8. Are drug, alcohol, and tobacco abuse also responsible for the high number of accidents in our society today? Justify.
Answer: Yes, drug, alcohol, and tobacco abuse contribute significantly to accidents. For example, intoxication impairs judgment, leading to reckless behavior and increased risks of accidents. Additionally, smoking can cause health issues that indirectly lead to accidents.

SECTION D: Composition (10 marks)

Topic 1: Imagine that you saw (came across) a ghastly motor accident last week when coming back from school, recount the scene.

Sample Answer: Last Tuesday, while returning home from school, I witnessed a horrifying motor accident near the market square. It was around 5 PM, and the roads were busy with vehicles and pedestrians. Suddenly, a speeding motorcycle collided with a mini-bus that had stopped suddenly due to traffic congestion. The impact was so severe that the motorcyclist was thrown several meters away, landing unconscious on the ground. His helmet flew off, revealing a bleeding head. Passersby quickly gathered around the scene, calling for help. Some administered first aid, while others flagged down a taxi to rush the injured man to the nearest hospital. I felt deeply shaken by the incident and realized the importance of road safety.

Topic 2: Write a letter to the principal of your school to tell him how to administer a first aid assistance to a student who has fainted during a sport and physical exercise lesson and he is bleeding on his nose.

Sample Letter:

GBHS Ntinkeu
PO Box 001 GRA Street

Date: [Insert Date]

To:
The Principal
GBHS Ntinkeu

From:
Traupen Ajuatsa

Subject: Administration of First Aid Assistance

Dear Sir,

During a recent sports and physical exercise lesson, one of our students fainted and started bleeding from the nose. In such situations, it is crucial to administer first aid promptly. Here are the steps to follow:

1. Lay the student flat on the ground and elevate their legs slightly to improve blood circulation.
2. Tilt their head backward gently to ensure the airway is clear.
3. Pinch the soft part of the nose firmly for about 10 minutes to stop the bleeding.
4. Provide reassurance and monitor their condition until they regain consciousness.

I hope these guidelines will help in handling similar emergencies effectively. Thank you for your attention.

Yours sincerely,
Traupen Ajuatsa

Topic 3: Many people are constantly smoking cigarettes in your community and this is causing a lot of health problems and disturbing their well-being and that of their neighbors. Write a letter to your uncle to tell him five consequences of smoking and propose three measures to be adopted to stop smoking.

Sample Letter:

GBHS Dschang
P.O. Box 22 Menoua
Date: [Insert Date]

To:
Uncle Jude Assakang

From:
Jude Assakang

Subject: Consequences of Smoking and Proposed Measures

Dear Uncle,

Smoking has become a serious issue in our community, causing numerous health problems. Below are five major consequences of smoking:

1. Lung cancer and other respiratory diseases.
2. Heart attacks and cardiovascular diseases.
3. Premature aging and skin damage.
4. Reduced fertility and complications during pregnancy.
5. Secondhand smoke exposure harming non-smokers.

To combat this problem, I propose the following measures:

1. Organize awareness campaigns to educate people about the dangers of smoking.
2. Impose stricter regulations on cigarette sales and advertising.
3. Encourage smokers to seek professional help through counseling and therapy.

Let us work together to create a healthier environment for everyone.

Warm regards,
Jude Assakang
