- 4. What did he see in the river?**

He saw a lot of prawns in the river.

- 5. Give the name he called the river.**

He called the river **Rio dos Cameroes**.

SECTION C: Essay

Topic 1: In two paragraphs, tell us all the things that children can do to help their parents at home.

Children can help their parents at home in many ways. First, they can clean the house by sweeping the floors, dusting the furniture, and mopping the rooms. They can also help with washing dishes and putting away clothes. By doing these tasks, children make the house tidy and comfortable for everyone.

Second, children can assist in the kitchen by preparing simple meals or helping to cook. They can also set the table before meals and clear it afterward. Additionally, children can take care of younger siblings by playing with them or helping them with homework. These actions not only help parents but also teach children responsibility and teamwork.

Topic 2: Talk about some jobs that you know and the instruments that we use to do the jobs; which job do you think is the best? Why?

There are many jobs that people do, and each job requires specific tools. For example, a carpenter uses a hammer, saw, and nails to build furniture. A doctor uses a stethoscope, thermometer, and syringe to treat patients. A teacher uses a chalkboard, books, and markers to educate students.

In my opinion, the best job is being a doctor. Doctors help people when they are sick or injured, and they save lives. They use their knowledge and skills to make people feel better. This job is very important because it contributes to the health and well-being of society. I admire doctors because they work hard and care for others.

Topic 3: You are asked to give advice to your friends on how to live in a beautiful house and a healthy environment; what will you say?

To live in a beautiful house and a healthy environment, you should keep your home clean and organized. Start by sweeping and mopping the floors regularly, dusting the furniture, and washing the dishes after meals. You should also take out the trash every day to avoid bad smells and pests.

In addition, you should take care of the environment around your house. Plant flowers and trees to make the area look beautiful and fresh. Avoid littering and recycle items like plastic bottles and paper. Finally, make sure to open windows for fresh air and let sunlight into your home. By following these tips, you can live in a clean, beautiful, and healthy environment.
