**TASK 1. READING COMPREHENSION**

**Carefully read the text and answer the questions that follow. (10 marks)**

*What should you do to get in shape?*

Lots of people get out in shape because of ignorance. You should be very careful to maintain your shape. Live a healthy life to be in shape. How do we get in shape? We get in shape by living decent lives; we should avoid eating a lot. We should avoid drinking and smoking. Eating a lot of food can make us become too fat. Becoming too fat is also called obesity. When you are very fat, you are exposed to many illnesses. You have hypertension, diabetes and heart attack. These illnesses are very dangerous. To prevent them, we should eat balanced diets. Finally, we should do a lot of sports and gymnastics. Sports and gymnastics help us to eliminate many impurities from our bodies. By sending out these toxins, we grow healthy. An inert body. That is an inactive body is exposed to a lot of danger. Therefore, we should do a lot of sorts and gymnastics to get in shape.

4. **What can help us eliminate toxins from the body?** (3 marks)

Sports and gymnastics help us eliminate toxins from the body by sending out impurities and keeping the body active.

### **TASK 2: COMPOSITION WRITING (10 marks)**

**Topic 1: Leisure Activity**

**Leisure Activity: Reading**

Leisure activities are activities that people engage in during their free time to relax and enjoy themselves. Examples of leisure activities include reading, playing sports, watching movies, and gardening. Among these, my favorite leisure activity is reading. I enjoy reading because it allows me to explore new

worlds, gain knowledge, and relax. I usually read in a quiet place, such as my room or a library, where I can focus without distractions. Reading helps me improve my vocabulary, enhances my imagination, and reduces stress. It also provides me with a sense of accomplishment when I finish a book. In conclusion, reading is a beneficial leisure activity that enriches my mind and soul.

**Topic 2: Recycling Waste in Cameroon**

In Cameroon, the environment is highly polluted because many inhabitants are unaware of the items they can recycle and reuse in their homes. Waste products are materials that are no longer useful and are thrown away. Examples of waste products that can be recycled include plastic bottles, tin cans, and paper. Plastic bottles can be recycled into mats, flower pots, or pencil holders. Tin cans can be reused as flower pots or storage containers, while paper can be recycled into new paper products. Recycling waste is important because it reduces pollution, conserves natural resources, and creates job opportunities. By recycling, we can protect the environment and promote a healthier society.
