SECTION C: reading (10 marks)	
nowadays households produce more wa	aste than ever before. this leads to problems such as soil pollution, air pollution
	posal refers to the collection, temporary storage and treatment of house hold
	g garbage management at home, the first thing to do is to separate garbage
•	we can create compost at home with degradable waste like leftover food, frui
	garbage into fertilizers which help to grow our own garden. waste separation
makes the process of recycling very easy.	
the next thing to do is to limit the us	e of plastic, land animals and marine beings die out because of plastic
consequently, we must reduce the use of pla	astic as much as possible in our daily life, we should avoid buying plastic wate
bottles; instead of plastic ones and we shou	uld also carry cloth bags every time we go out shopping, we can even turn ou
old jeans trousers into bags.
