Section C : Reading (10marks)

Read the following sentences carefully and answer the questions that follow.

A person with experience, a person you can depend on, a person that will voice the concerns of and represent each and every one of you, a person that will put in 110 percent is the type of person you need in serving as your Student Government President. My name is Nkafu Juluis, and I believe that I am that type of person and I am ready to step into that position, to serve as your Student Government President.

I have been a member of the student government since my freshman year here in Bilingual Government School (BGS), serving as a representative for the class of 2012 and having been the School Cooperative President this past year. Each year, I have learned more about the commitment level it takes to get the concerns and issues of the student body of BGS, heard and presented to the administration and staff in order to get them resolved. This year particularly, I have been able to be a part of the dialogue with the administration about issues affecting the school community and strongly believe that I am bringing that experience with me.

Commitment is what I will give to every component of BGS community, especially to all of you, my fellow students, to be the best representative of BGS student body. It is your ideas and concerns that help in moving BGS forward. It was the ideas and concerns of students that were heard that helped

to make our new campus centre possible. I want to be the one that continues to ensure that all of the ideas of the students are heard.

I'm not going to go into stating empty promises, but rather issues I believe need to be addressed. Lack of books in the school library has always been a critical issue and I do realise that it isn't something that can be resolved overnight. But this is an issue of great concern and I intend to work to get it resolved. Concerns about security are among things that are constantly brought up to the student government. I strongly believe that we are making headways in resolving some of these concerns, but I believe that there is still more to accomplish; and I intend to see that it will be. I believe that the most important ideas and concerns that the student government addresses are the ones that come from you the student body. That is why one of my goals is to continue to increase the involvement the student body has with the student government.

I feel that each of the other three candidates is also vying for the post of president. But I believe that I have the drive to serve the students of this campus. I am willing to put in my best. Yes, I am running a highly contested election; but I still need you to give me your validation and support by voting so that together we can continue in accomplishing what we have already started.

Thank you all for your time, and I encourage all of you to exercise your right to vote this week and in the upcoming class elections.
